Maximiliano Raúl Malvicino

.NET Backend Developer

I am passionate about acoustics and programming. Throughout my career, I have been working on projects that combine these fields and converge in signals processing. Until now, my work experience has been mostly focused on teaching. Motivated by the new challenges that the growth of the technology industry implies, I am currently looking for my first experience in the IT field as a software developer.

Experience

Freelance Developer: ASP.NET Ecommerce
From September 2024 to present.

Teaching Assistant for Programming 2: UTN
From August 2024 to December 2024.

Teaching Assistant for Physics 1: Untref
From August 2019 to July 2023.

English Teacher: Biblioteca P. L. Favio
From March 2014 to December 2017.

Education

Sound Engineering (60%)

Universidad Nacional de Tres de Febrero

Technical Degree in Programming

Universidad Tecnológica Nacional

Languages

Spanish

Native from Argentina

English: Cambridge First Certificate

B2 level (CEFR, ESOL)

Portuguese: UTN Course
